## Welcome

Welcome to the 7-2 news article. Here you will be kept up to date on activities and much more. One of the benefits of the news article for parents is that you can be informed of activity's your child could be attending such as track, debate and more. It can also inform parents of field

trips and assembly. Also, it can help remind students to bring special things for certain days it also gives the students of 7-2 writing skills. Every student participates in the news article. 7-2 has put a lot of time and effort to write a variety of topics such as Global issues, Politics, Global /

Canadian politics, Tips for math / helpful websites, Puzzles (word search, crossword / Sudoku), Upcoming projects, Last month's projects, Challenges / dealing with issues, Club information / upcoming

## Upcoming Events

Amanuel Ahmed: House Color Sorting

There are house colors in Arthur. A. Leach. On October 4th we get sorted into our house colors. They are green, orange, blue and red. Kids that are already sorted into house colors go to their corners and the new kids go to the middle. Then now they are waiting for their names to be seen

on the screen and if your name is on there you wait for the color to be picked by The Sorting Hat after you get your color t-shirts. Now since everyone has been sorted now, we start to play games, so we can earn points so by the end of the year we collect all the points and we see who the winner of the year is and whoever wins gets a trophy.

## Halloween Event by Maria Vasquez

Its October! On Oct. 31st come to celebrate Halloween! Mrs. Eldridge is preparing the best party ever! She will do Halloween competition activities according to your house colour! I'm sure it's going to be awesome!

Last year there were games like the Simpsons game, when you race in a circle, but have to crawl between your teams' legs! People

say that a few years ago, they did a dance off and an iron stomach, when you have to eat mystery food!! It's going to be a fun afternoon!

At the end each team earns point according to the activities and games they win!

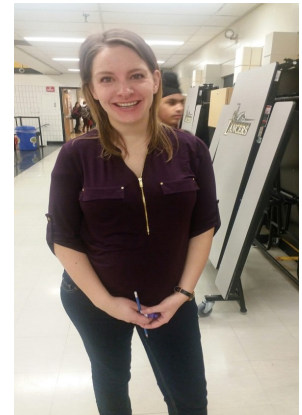

Be prepared for the spookiest party ever! All the school will be there, and

you should be there too. And remember to wear your costume!

## Staff Updates by Harshveer Sodhi

Hey 7-2 On Tuesday Sept .25, 2018, Ms.Arnason told the Clarinet Sectional Students that she was pregnant. She wanted to tell everybody in the School later but a Student noticed her Stomach so the person asked

Ms. Arnason if she was pregnant. This event is happening because she wants to tell the whole school that she is going to be leaving in December for the school year. So that means she is going to come back, next year for band.

## Debate Club by Ayaan Khan

Did you know that Arthur A. Leach has a debating club? This club started on September 25<sup>th</sup>. The debate club is opened to all the students once a week on Fridays.

This club helps you to improve your public speaking. Encouraging you to make strong arguments. In order to train yourself you are given a topic by the teacher and you have to speak about it. On average you have about 15 competitions

in the whole year we have a competition within the school division called the Scholarship cup which Arthur A. Leach won last year!

## Global Issues by Jasmine Meline

New Delhi's Bobby John, global health advocate, is searching for an end to Tuberculosis. The dramatic disease made a huge comeback in 1991-1992. But if you fast forward to 2018, India is the world's largest Tuberculosis burden country.

India's prime minister has committed to eliminate Tuberculosis by 2025. 1.8 billion people; one third of the world's population are infected by Tuberculosis. To me, this seems unre-

markable that this many people are affected by this disease. If not treated properly, Tuberculosis disease can be fatal. Tuberculosis is extremely contagious. All one has to do is cough, sneeze or spit. They spread microscopic drops containing the bacteria.

It's important to keep an eye out for Tuberculosis symptoms. A couple of them are, intense fever, chills, sweating, chest pains, fatigue, and ex-

treme weight loss.

For treatment, doctors start patients on a four- drug regimen. The cost for this treatment is \$134,000 per person.

"One hopes we can eliminate this awful disease" ~ Bobby John

## Upcoming Projects by Matthew Yarema

What's up 7-2? You may be interested to know that 7-2 has a fun project coming up. Students in grade 7 will harness their inner engineer, because they will be building spaghetti bridges, for the science unit: Buildings and structures! Students will only

be allowed to use spaghetti and white glue. The students with the top bridges will be submitted to a spaghetti bridge competition on March 9 and 10 at Kildonan place shopping center. Best of luck on your bridges grade 7!

## Global Politics by Emmanuella Shaibu

France has proof! Proof of what you may ask, proof that the Syrian Government was behind the Syrian weapons attack in Khan Shiekhoun, Syria ( A weapons attack on their own country!) The French believe that it was the Syrian Government because the Prime Minister of France said, "The procedure used to make

the sarin sample is typical of the methods developed in Syrian labs."

The attack killed 85 people which is tragic. Syria was supposed to give up their chemical weapons stockpile in 2013 because of an attack that killed 1400 people.

The lesson in this scandal; don't make bad decisions because people will always find out, even if you try to hide it.

## Canadian Politics by Sam Buoncore

Canada has joined Mexico and the U.S.A on a new trade agreement called USMCA, which replaces NAFTA. Wanting to modernize our trade agreements with Mexico and the U.S., Canada has spent 14 months negotiating a new trade deal. These are a few key items that were renegotiated. The U.S. wanted the supply management system that Canada uses for such items as dairy, eggs, chicken and turkey to be eliminated. But Canada gave a little more access to these markets instead. For example, the American dairy

market will have 3.6% more access to the Canadian dairy market. The egg industry will allow 10 million dozen additional imports when the USMCA becomes the law. The cost of drugs will go up because name brand drugs will be protected for 10 years from generic competition. Up 2 years from 8 years under the old NAFTA agreement. The one important thing that Canada wanted was the dispute settlement mechanism and they were able to keep this even though the Americans wanted to get rid of it. The dispute settlement mechanism is

used to settle trade disputes. All in all, it's too early to tell what this new deal will do to us and all those involved. My prediction is that many Canadian farmers and people are worried about this new trade agreement because they don't know what will happen to them. In the end the big winner here is Trump. He sold NAFTA to the American voters as the worst deal ever. Getting a new deal done, he looks like a winner or if getting a new agreement had failed, he still comes out on top by getting the Americans out of a bad trade deal.

## Math Tips by Even Le

Math is essential for everyday life. Next month our class will be adding, subtracting, multiplying, and dividing decimals. Here are some helpful tips to make it easy. If you are adding or subtracting decimals, remember to line up the decimal points in your two numbers before you start. When you multiply decimals, multiply the

numbers without the decimal points. After, move the decimal point the same number of places to the left as there are numbers after the decimal point in the two numbers you have multiplied. For example:  $1.2 \times 0.25$  becomes  $12 \times 25$  which equals 300. Since there are a total of three decimal places in the two

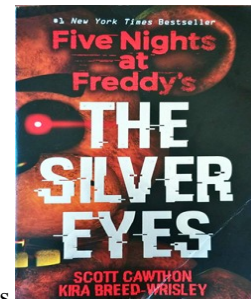

numbers multiplies, you would put a decimal in your answer three places to the left. Therefore, the answer for  $1.2 \times 0.25$  is 0.3. People need to use math skills every day. These tips will make working with decimals easier to do.

## Sports Updates by Muyideen Bakare

Winnipeg entry in the Canadian premier league to be called Valour Fc which was founded on May 6, 2017 which was 16 months ago Valour Fc stadium is the Investor's group field which is in Winnipeg 315 Chancellor Matheson road the president of Valour FC Wade Miller and the coach is Rob Gale and I hope Valour FC can win the Canadian Premier league.

Good Luck Valour Fc!

## Book Review by Justin Tuazon

Scott Cawthon and Kira-Breed Wrisley worked together to publish *The Silver Eyes*, a book about Scott's famous video game, *Five Nights at Freddy's*. *Five Nights at Freddy's* (FNAF) is a horror video game where you play a security guard in a pizza place like Chuckie Cheese. The player observes the animatronics through security cameras to make sure they don't make their way to their office and kill them. The player must defend themselves with two mechanical doors that can close if an animatronic is trying to get inside the office. Since the player has limited power, they must use it wisely. Scott has made 8 games about *Five Nights at Freddy's* that were played by millions of people. Sadly, the *Five Nights at Freddy's* series ended with the last game, "Ultimate Custom Night", where the player can control the difficulty of the game.

In the book *The Silver Eyes*, old friends meet each other again in Hurricane, Utah, to attend the ten-year death anniversary of their friend Michael. After the ceremony, the friends decide to visit the old broken-down pizza place where Michael got murdered.

Then strange and mysterious things start to happen.

I would recommend this book to people who enjoyed playing the actual game or people who like scary books. If you enjoyed *The Silver Eyes*, I recommend reading *The Twisted Ones* and *The Third Closet*. These books also give some backstory of the characters in the game, like William Afton (Purple Guy) or Golden Freddy.

I read this book all night because every chapter ended with a great cliffhanger! I rate this book 9/10 because It's just such a great book to read in your free time!

## Nutrition Table by Parvir Pnag

What is food? Food is any substance consumed to provide nutrition support for any organism. It contains essential nutrients such as carbohydrates, fats, proteins, vitamins, or minerals. Food is ingested by an organism to provide energy. The nutri-

tion has maintained food safety and security. The food that the Nutrition Table provides is energy giving and healthy. The nutrition table encourages us to cook and make healthy choices. Mostly the students favorite are macaroni and marinara and

pizza buns. If you have taken foods Mrs. Isford will teach you everything about food, how to cook it, how to use the ovens etc. The nutrition table provides good quality food and it's cheap. A meal costs between 25 cents and 1 dollar. The nutrition table is opened between 10:50 to 11:05. Better get there before it runs out.

## Band Fundraisers by Jay-Lin Ouellette

Ms. Arnason is doing a fundraiser for show and save booklets and cards! So, you need to get one ASAP!! It's at a low price at \$25.00! For a coupon booklet and a card with the show and save website. It's a one your subscription. You can get the app on

Apple app store and Google play.

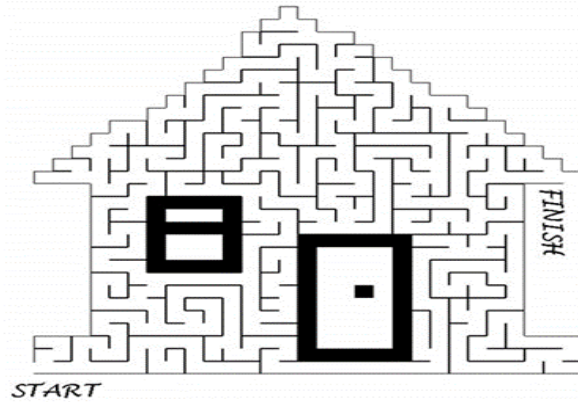

We are using the money that give us for the book and card, to go on band trips and get lessons for the instruments we play! And a whole bunch or other fun and

amazing things to do with our band teacher!

I don't feel so good...

This comic has been canceled due to the strange disappearance of Emurey Moffett. We are sorry for the inconvenience.

# Student Of The Month by Gavin Pauls

I interviewed Juan and Even who have won Students of the Month for September in the class of 7-2. From what they have told me, I've discovered that they're both trying to help their future selves. By doing little things like joining clubs and helping other students they are choosing to do things which will help in the future with getting jobs.

## The Interviews

### Juan

What clubs are you in?

"Debate, x-country, jazz band, volley ball, and dungeons and dragons, student action."

What inspired you to join a variety of clubs?

"So, I can help my future"

How do the clubs at Leach compare to the clubs attended at other schools?

"I enjoy them more, there's more variety and they're more serious"

Juan Pinto

### Even

What made you want to help another student out?

"To make money"

Is that something you've done in the past?

"Never"

Do you think that this might lead to a future of helping people?

"Yes"

Even Le

What is a meme?

Meme

[Mēm]

NOUN

## Memes by Emurey Moffett

An element of a culture or system of behavior that may be considered to be passed from one individual to another by nongenetic means, especially imitation. A humorous image, video, piece of text, etc., that is copied (often with slight variations) and spread rapidly by Internet users. (Oxford Dictionary (2018) <https://en.oxforddictionaries.com/definition/meme>)

Meme of the month(s)

September: Johnny Johnny yes papa.

Johnny Johnny yes papa's origins are unknown, but it has been used in multiple commercials, and children's entertainment. Many books say it originated in Kenya, although some say it has earlier origins from India.

Johnny Johnny yes papa is about a father that has caught his son eating sugar, but when papa asks Johnny if he is eating sugar Johnny says no. He then asks Johnny if he is lying which Johnny also reply's no. papa then asks Johnny to open his mouth, which

Johnny laughs while opening his mouth revealing a pile of sugar.

This became an internet meme in September 2018 when a channel on YouTube named billion surprise toys posted a video.

Many people have edited this video to make it comedic and appealing to older viewers.

## Movie Review by Rebecca Shaw

The laughter filled movie, Incredibles 2 takes place in Metroville. The first Incredibles movie came out in 2004. The second movie was released in June of 2018. I really enjoyed this film and rated it a 4 out of 5 stars. I rated it this because I thought the plot was well thought out, a family of superheroes are

saving the world from wrongdoers trying to hypnotize heroes to turn them into villains! However there were some unnecessary curse words. I think this movie is suited for people 8 years and up, as long as parents are ok with their child being exposed to certain language. The main characters in the

movie are Bob, Helen, Violet, Dash, and of course Jack Jack. This is a PG film by Disney Pixar, and the genre is science fiction/action. This movie is two hours and five minutes long. Overall, I recommend this movie for you and your friends and family to watch.

## Volleyball by Emma Pow

The grade 7 girls will have their first volley ball tournament on Wednesday October 10<sup>th</sup> at Charles wood school from 4:00-6:00. The next practice will be on Thursday October 11<sup>th</sup> at 5:15-6:00pm. The game and practice schedule will be listed below, you can also find it on the school website. The coach is Ms. Isford, She is the food teacher at our school she volunteers her time to help us learn how to play volleyball. By joining you will play make new friends and have lots of fun. Good luck lancers!

## Artist Of The Month by Esja Larson

**Presley Webb** is a 7<sup>th</sup> grade student at Arthur a Leach School, who is a talented young writer. Her poem *Say something* is a beautiful piece about losing a loved one. At the beginning of the poem she writes with beautiful description of what the protagonist can hear, see, and feel. The detailing in the story made me love this short piece of literature. Thought the narrative we learn the protagonist's doubts and fears. This type of literature is touching to me since all the hard work put in to show the emotion which I have respect for. Finally, we readers are hit with a strong ending and cliff hanger, "Goodbye". Personally, I love stories with cliff hangers, when I polled the class it came back with 80% agree that they enjoy a good cliff hanger.

This stories inspiration is from the song "Say something" by Justin Timberlake. Presley Webb proudly entered this poem into a small writer's contest, fingers crossed for a first-place finish! My lingering questions thought the story are were how are they together, are they friends, siblings, family members or are they lovers? When I went into further analyzes, I realized she put that in on purpose to make it more relatable form of writing for everyone, which is quite amazing. Otherwise it was a great story otherwise I would rate this poem 4.5 out of 5 stars!

*Thank you, Ms. Presley Webb, for your awesome submission!*
